

EXTENSIVE TRAINING PROGRAM

Since early 2014, 365 has been arranging extensive CSCS and CPCS training and qualifications in accordance with CITB regulations.

In order to meet the demands of the ever-growing UK construction market, 365 has begun offering training for UK and EU based operatives and tradesmen.

Training offered by 365 has included the below courses among many others:

- NRSWA
- NPORS
- Health and Safety Awareness
- Confined Spaces
- Asbestos Awareness
- FLT/LLOP
- GPS
- Height and Slew Control

365 prides itself in having supported training and certification in excess of 400 Construction operatives to CSCS and CPCS level.

The quality of training arranged by 365 has assured a significant number of long-term placements on UK biggest construction projects. The strength of 365 lies in personal relationships with over 3000 construction-related tradesmen who have been working with 365 regularly over a continuous period of time. One of the longest placements offered by 365 has lasted up to 3 years.

365 is able to ensure a high level of service to both our clients and candidates due to years of expertise in building and construction industry in the UK and abroad. We advise on employment status, accommodation solutions, training opportunities and many more.

While working with 365 you can rest assured that your career and your projects are in safe hands!
